

STUDENT BEHAVIOUR MANAGEMENT POLICY

Aim

We believe in the importance of students learning to manage their own behaviour. Therefore we aim to promote an understanding of socially acceptable behaviour.

Principles

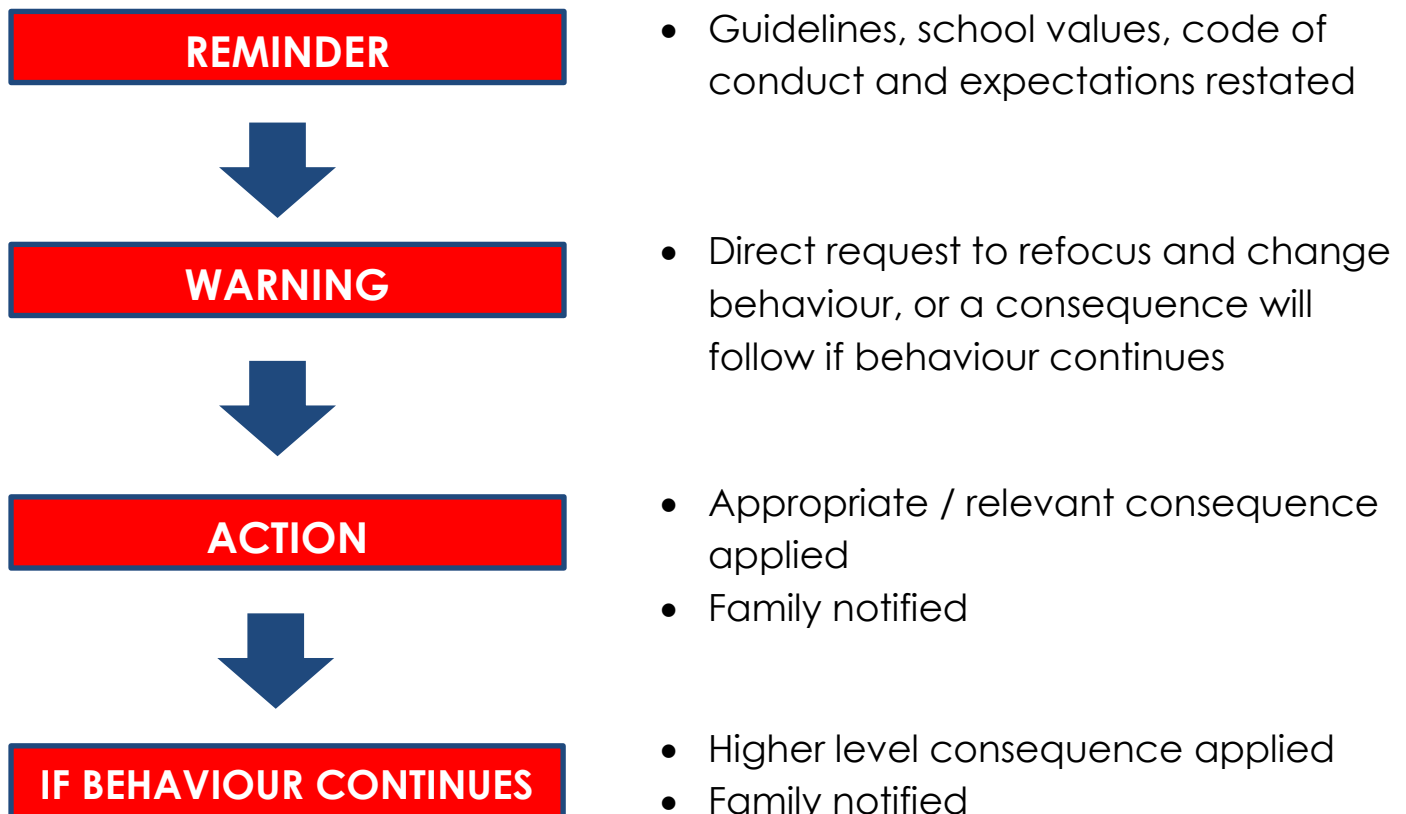

- Teachers have a right to teach and students a right to learn.
- Everyone has the responsibility to respect the rights of others.
- Students have the power to change their behaviour.
- Student behaviour management and the Code of Conduct will be based on school values:

Respect, Honesty, Responsibility, Personal Best and Friendliness

- All teachers have a shared responsibility for the management of student behaviour at Kingston Community School.

Behaviour Management Plan

STEPS

Some steps may be skipped if needed based on the severity of the behaviour. Continued referrals for behaviours may lead to further actions to support the student in changing their behaviour.
